

TVX887

The **TVX887** is a rugged smartphone (IP67) with Android 7 operating system, 2.4-inch screen in QVGA resolution and 3600 mAh battery, which makes it the ideal device for fast and clear radio communications.

With a dedicated **PTT** button and **TeamVOX** certified for Push-To-Talk over cellular networks, two-way group and/or individual radio calls are just a click away.
