

TVXONE

TVX ONE is a 4G LTE PoC Radio that combines the best of traditional **PTT** (push to talk) with the wide area coverage provided by public cellular networks for the best performance in its class. Many of our customers have some of the toughest jobs in the world. Extreme environments, challenging tasks, and risky situations demand reliable communications to keep in touch with their teams. **TeamVOX TVXONE** is a communication tool tough enough to withstand the harsh conditions they are exposed to every day.
